Uppercase letters indicate significance at the 95% level.

Table 4

In recent years, the NCC has rolled out several small, fast-tracked projects to make waterfront in the National Capital Region more vibrant, accessible and inviting. These have included installing a recreational dock at Dow's Lake, opening bistros along the Ottawa River and the canal, renovating Westboro Beach facilities and opening the River House on the Ottawa River with swimming, boating, a restaurant and seating to enjoy the water.

How likely are you to take advantage of the changes the NCC has made to these waterfront spaces?

*** Denotes Chi-Square where at least one cell has an expected value of less than 1
or more than 20% of the cells have an expected value of less than 5.

Table 5

In the past few days, the NCC announced they will be launching "Capital Cottage," a new campaign highlighting how the NCC is making it easier for residents and visitors to experience cottage vibes without the drive. As part of this campaign, they will be opening two new swimming docks, one that opens in July on the Quebec side of the Ottawa River at the Canadian Museum of History and the East Wharf which will be on the Ontario side of the Ottawa River right near the base of the Rideau Canal and Major's Hill Park.

Have you read or heard anything about these new swimming docks?
