| Je préfère ne pas répondre | 6 | 1 | - | 3 | 1 | - |
| | 1% | 1% | | 4% | 2% | |
| Chi-Square | | <----------94.81----------> | | | | |
| Significance | | 100%* | | | | |

Comparison Groups: EFGHI
Independent T-Test for Means (unequal variances), Independent Z-Test for Percentages (unpooled proportions)
Uppercase letters indicate significance at the 95% level.
"*" Denotes Chi-Square where at least one cell has an expected value of less than 1
or more than 20% of the cells have an expected value of less than 5.

Table 2
Dans quelle mesure est-il probable que vous changiez d'avis et que vous finissiez par voter pour votre deuxième choix ?
Base : Résidents d'Ottawa ayant fourni un deuxième choix de personne candidate
